Using your dictionary

The words in a dictionary are in the same order as the letters of the alphabet. This means words that begin with A come first, then

words that begin with B, and so on. In this dictionary there are many things on each page to help you to find the word you are looking for.

This word shows the first word on the page.

This word shows the last word on the page.

If you forget the order of the letters in the alphabet, look at the side of any page.

This writing explains what the word means.

This sentence shows how you can use the word.

This letter shows the first letter of the words on the page.

start to stool		
a	start do the first part of something; begin	stick ¹ a long, thin piece of wood.
b		
c	The birds are starting to eat the seeds.	
d	station a place where people get on and off trains	stick ² (stuck stuck) use glue to join things together
e		
f		stir move something around with a spoon or stick
g		
h	stay 1. not leave a place	still ¹ If someone or something is still, they are not moving at all.
i	The cows stay in the field all day.	
j		stone 1. a small piece of rock
k	2. live somewhere for a short time	
l		2. a hard seed inside fruits such as plums and avocados
m	steep if a hill is steep, it slopes a lot and it's hard to climb.	stool a seat without a back
n		
o		
p		
q		
r		
s		
t		
u		
v		
w		
x		
y		
z		

The words that can look up are shown at the top of each box. You can find out about words in brackets on page 95.

Sometimes the same word appears twice with little numbers next to it. This shows that the same word can be used in two very different ways.

Don't forget to look in a dictionary you read down the page in columns. In most other books you read across.

How to find a word

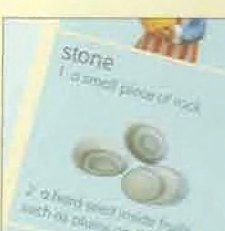

1 Think of the letter the word starts with. "Stone" starts with an "s", for example.

2 Look through the dictionary until you have found the "s" pages.

3 Think of the next letter of the word. Look for words that begin with "st".

4 Now look down the "st" words until you find the word you are looking for.

Aa

actor to ambulance

actor

someone who pretends to be another person and acts in a play

afraid

If you are afraid, you think something is scary or bad.

Maddy is afraid of spiders.

air

More about using your dictionary

When you have looked up a word, here are some of the things you can find out.

You can find out how to spell a word.

You can see how you can use a word.

know (knew known)

1 If you know someone, you have met them before.

These children know each other.

2 have something in your mind

You can see if a word can mean different things.

A picture tells you more about a word.

You can find out what a word means.

know (knew known)

1 If you know someone, you have met them before.

See the opposite page to find out about words in brackets.

hen

(also called a chicken)
a bird that farmers keep

This tells you another word for the same thing.

Net²

a short name for the Internet

You can find out if a word is short for something.

hippopotamus

(also called a hippo)
a very big animal with short legs and thick skin

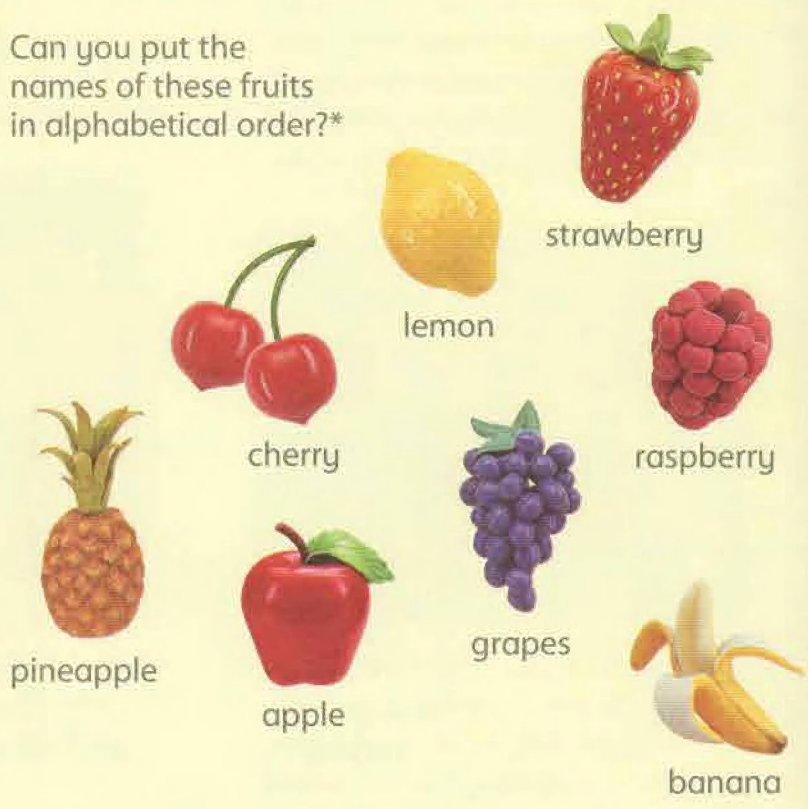

You can also find out if a word can be shortened.

Word games

For practice, see how quickly you can find these words in the dictionary:

- bat
- street
- lion
- hill
- wash
- jacket
- cake
- music

Can you put the names of these fruits in alphabetical order?*

*Answer: apple, banana, cherry, grapes, lemon, pineapple, raspberry, strawberry

Talking about the past

"Doing" words, such as "walk", "smile" and "eat" are called verbs. When you use a verb to talk about the past (the time before now), you usually just add "ed" or "d" to the end of the word:

Danny likes to walk to school.

Yesterday Danny walked to school.

Danny has walked to school every day this week.

My baby can smile.

She smiled yesterday.

My baby has smiled a lot this week.

For some verbs, you don't add "d" or "ed", but another ending to talk about the past. Some verbs change completely:

Robert likes to eat pasta.

Yesterday he ate pasta.

He has eaten pasta every day this week.

In this dictionary, you can see these changes in brackets () after the word:

eat (ate eaten)

Comparing words

"Describing" words, such as "small", "expensive" and "good" are called adjectives. When you use an adjective to compare things, you usually just add "er" or "est" to the end of the word:

A horse is smaller than an elephant, but a mouse is the smallest.

For some adjectives, instead of adding "er" or "est", you say "more" or "most" before the word:

A car is more expensive than a bicycle.

A truck is the most expensive.

You must be more careful.

Sara is the most careful.

For a very few adjectives, you don't add "er" or "est", or "more" or "most", but change the whole word:

This cake is good.

This cake is better.

This cake is the best.

In this dictionary, you can see these unusual words in brackets () after the word:

good (better best)

More than one

"Naming" words, such as "goat", "sheep", "mouse" and "child" are called nouns. When you use a noun to talk about more than one thing, you usually add an "s" to the end of the word:

one goat two goats

one house two houses

If the word already ends with an "s", you add "es" to the end instead:

one cross two crosses

For a very few nouns, you don't add an "s" or "es" to the end, but keep the word exactly the same:

one sheep two sheep

For a few nouns you add a completely different ending:

one child two children

For some nouns, you don't change the ending, but you change the whole word:

one mouse two mice

one goose two geese

In this dictionary, you can see these unusual words in brackets () after the word:

child (children)
